What is organized gang stalking? Most educated accounts indict the NSA's FVEY massive wire tapping scheme that trickles Americansand others illegally captureo communications across borders and jurisdictions, working with so called community policing, and hidden policing tactics, like Law Enforcement Intelligence Unit's (LEIU's), and organizaions like Stratfor, or any number of other DHS private contractors and co-conspirators who pass our illlegally obtained information to local police, who pass that information to cowards and subverters of Constitutional due process. This "community policing" is an endless make-work project that drains tax dollars, targets lawyers, journalists, dissenters and activists, and each community is different-so your personal stalking might include: Mormons and LDS Church; Baptist, Protestant, Catholic, Evangelical, and Jewish cults or other sects working from churches and Soros/Koch brothers funded NGOs; or, academics; pseudo-feminists and their associated multi-cultists, SJW's, crybullies, and multi-culturalist's who get federal dollars from hoaxes, lies and the manipulation of DV stats; Christians and others who want to enforce conformity or cause superstitious fears; and especially political parties fueled by progressive or neo-con cult mentality. Begin tracing your stalkers HERE! Arm yourself with a camera, and blog it live. Start YOUR legal research here, because these are primarily civil conspiracies against your rights-so document EVERYTHING, and especially take names. Avoid all talk of DEW's, face orbs, flat earth and UFO's, the devil, and the other disinformation about electronics-and stick to talk about wiretaps, Fusion Center domestic and political spying, and hidden database abuses with the FBI's Infragard as the political spying nexus that has stolen or redirected our data, and enabled most targeted, personalized, and local illegal 'electronic' surveillance.
